

New England

New England

USA Track & Field - New England

As one of USATF's 57 associations, USATF New England includes in its membership the states of Massachusetts, New Hampshire, Rhode Island, and Vermont. (Maine and Connecticut have their own associations.) With 3300 members, 120 member clubs, and over 400 sanctioned events, the New England Association is among the largest and most active associations in the United States.

The New England association is recognized as a leader in the sport. The association is run by staffed office and is overseen by a Board of Governors which is elected by the membership at the Annual Meeting in September. The Board is composed of officers, sport committee chairs, and athlete representatives, and meets on the first non-holiday Monday of each month to discuss the sport in general and the direction of USATF-NE programs. Member clubs attend general meetings and are able to bring up and vote on issues of concern; the road race *Grand Prix* selection meeting in November is the best attended.

USA Track & Field - New England
